Dealing with Professional Challenges: Is it an Art ?

10:00 a.m. – 01:00 p.m. (CET)

Live from the “Zentrum für Medienkompetenz”

Universitätsklinikum
Tübingen

Dear colleagues, ladies and gentleman,

excellent expertise alone is often not enough to cope with all the challenges in professional life. We will therefore specifically address this topic in the first symposium of the *Diversity In Neuro-Oncology (DivINe)* network. What are the challenges? Can I learn how to deal with them? How can I practice it? We will discuss such questions together. We are very pleased to announce an internationally renowned speaker, Prof. Jenewein from the University of St. Gallen, for the keynote lecture.
